---

*Motivated Android Developer with a passion for building robust and user-friendly mobile applications. Proficient in Kotlin with hands-on experience in Jetpack Compose. Skilled in integrating RESTful APIs and implementing established architectural patterns like MVVM. My background as a Mechanical Engineer has given me a disciplined approach to problem-solving, project management, and a strong sense of accountability. I thrive on creating clean, efficient, and scalable code.*

*Experience in the design, implementation, and maintenance of electronic security systems, including CCTV, alarms, structured cabling, and fire detection and suppression systems. Participation in projects for multinational corporations and LEED-certified buildings, demonstrating the ability to work on complex and large-scale projects.*
